

Objective

Electrical Engineering 2027 graduate with coursework in power systems, electromechanical systems, RF communication and embedded controls seeking a full time Electrical Engineering job. Will relocate.

Education and Relevant Coursework

Worcester Polytechnic Institute (WPI), Worcester MA

May 2027

Bachelor of Science in Electrical and Computer Engineering expected in May 2027. GPA: 3.0.

Skills

Software: C, MATLAB, Simulink, Verilog, LTspice, FreeRTOS, Solidworks

Applications: soldering, 3D printing (FDM and resin), circuit design (analog and digital)

Work Experience

AI Intern, Clearer.io, Irvine, CA

May 2025 - July 2025

- Designed and created AI-assisted workflows to automate recurring business processes
- Built and trained task-specific AI agent to generate weekly competitive analysis reports and populate Google Docs

Software Engineer Intern, SchoolStatus, Virtual

July 2024 - August 2024

- Implemented endpoint monitoring to detect and prevent recurring production outages
- Built and deployed monitoring tools in a linux (Ubuntu) virtual environment using VirtualBox

Relevant Projects

Guitar Luthier, Personal Project

- 6+ years of experience rewiring analog guitar electronics. Designed custom wiring schematics and modified pickup configurations. Built two guitars from scratch, rebuilt or modified my 10 guitars

Night Vision, Personal Project

- Modified open-source firmware and designed a custom optical housing integrating commercial image intensifier components. Gained hands-on experience with both digital and analog night vision systems

Raspberry Pi Pico Environmental Test Kit, School Project

- Designed and programmed a multi-sensor test kit on a Raspberry Pi Pico to measure and log light, humidity, sound, and weather conditions in real time
- Wrote code to interface multiple sensor modules with the Pico, capturing readings for analysis and calibration

Guitar Hero, School Project

- Built a Guitar Hero-style controller and game from scratch using a microcontroller, implementing button/strum input detection and note-timing logic
-

Leadership & Involvement: Community advisor for first year WPI students in 2024 and 2025, Interfraternity Council VP of Programming, Phi Kappa Theta fraternity member, Club Rugby, Student Alumni Society member and volunteer
